WORK EXPERIENCE

ZIMO Pro - Front End Developer (Remote UK)
Jun 2023 - Present

- Crafted an intuitive, responsive user interface with modern front-end technologies.
- Integrated components seamlessly using Next.js for enhanced user experiences.
- Implemented real-time updates via WebSockets for property listings.
- Enhanced user engagement with integrated mapping services.

PenAndWeb - ReactJS | NextJS Developer
April 2022 - May 2023

- Integrated APIs (Chart.js, Dropzone, Editor.js) for dynamic data visualization and interactive content creation.
- Implemented secure user authentication (signup, login, OAuth integration) for seamless user interactions.
- Developed user-friendly ticketing and booking solutions, streamlining reservation processes.

Storak Digital - ReactJS Developer
Aug 2021 - March 2022

- Led the development of captivating user interfaces using Bootstrap, React-Bootstrap, Material UI, Ant Design, and SASS.
- Proficiently employed state management (useState, useEffect, useMemo, useRef, useContext, Redux).
- Designed informative dashboards, translating complex data into actionable insights for decision-makers.
- Executed CRUD operations through RESTful API endpoints for efficient frontend-backend interaction.

EDUCATION

BSSE @ InstiInstitute of Management & Sciences
July 2017 - Aug 2021

PROJECTS

ZIMO Pro | Real Estate Platform   Link

- Bridged global users, facilitating crucial property transactions worldwide.
- Combined automation and curation for top-quality listings across the globe.
- Integrated frontend and backend via Next.js, ensuring a seamless user journey.
- Merged automation efficiency with curated user experiences.

STRIDE | Booking and Rental Platform   Confidential

- Designed and developed a user-centric interface for effortless navigation and optimal user experiences.
- Streamlined the booking and rental process, empowering users to secure their ideal living spaces.
- Utilized ReactJS and NodeJS for seamless frontend integration and performance optimization.

The Empire of Tiger   Link

- Designed and implemented the user interface to showcase different NFT factions like "The Outlaws," "The Black Souls," and "Assassins," each represented as ERC-721 tokens.
- Created a visually captivating user interface to display a collection of multiple unique NFTs.
- Collaborated closely with the design team to emphasize the distinctiveness of each NFT character.
